

# ONE PAGE INSTRUCTIONS: PAINT DRAWER ORGANISER

(A GIFT FROM NAT / EVALAINA)

**!! PRINT AT A4 100% SCALE !!**

(to fit wide Ikea ALEX drawers, easy to modify - See notes.

1. Cut out the template on the bottom right of this page
2. On your A2 piece of Foamcore, mark a line halfway
3. Cut ten strips lengthways from an A2 sheet of 5mm thick foamcore
4. Set three aside as shelf spacers and seven as rows
5. For each of the row strips, cut them to 42cm long
6. Starting 5cm from the front of each spacer strip, mark the first notch. Repeat using the template tool to evenly space and align each notch until the desired number of rows is achieved.
7. For each of the shelves, use the template to mark the position of the first notch.
8. Flip the template and repeat on other end, ensuring all notches are on the same edge.
9. find the midpoint of each row strip and use the template tool to mark a centre support notch.
10. Use the first strip as a guide to mark each subsequent strip
11. Cut out each notch with a sharp scalpel or cutting tool, and assemble.

## A2 SHEET LAYOUT

(cut 3cm strips lengthways)
